

# Find Green Infrastructure Near You

<https://climateaction.tucsonaz.gov/pages/gsi>

Use the link above to explore a project in your neighborhood.

If you can go visit it in person that is even better, but otherwise use the map and images to explore the site and make some observations below.

Observations:

What key problems does the new green infrastructure solve?

Address of Site Selected:

---

---

---

---

---

---

---

---

---

---

How does it store water?

How does it help cool the area?

Does it add biodiversity or habitat?
