

CAP Educator Academy: Exploring the Colorado River

June 23rd & 24th, 2026

9:30am - 4:00pm

5th to 12th Grade Educators

Central Arizona Project and Arizona Project WET invite you to an immersive, experiential STEAM academy. In this 2-day workshop, educators gain tangible resources and a supportive cohort to lead their students through meaningful applications of FUNdamental, hydro-science instructional concepts.

OUR THANKS TO:

At CAP headquarters, this academy delivers exclusive tours, presentations by industry experts, as well as activities from the newest editions of Project WET's world-renowned curriculum guides. Educators, this is where your working knowledge on water management in Arizona goes deep!

EXPLORE

- New paradigms for engaging learners in relevant STEAM practices that focus on systems thinking and project-based problem solving.
- Experience learning utilizing phenomena, cross-cutting concepts, and science and engineering practices.

GAIN

- In-depth knowledge of the CAP water system.
- Receive 12 hours of professional development (CE) & a **\$200 stipend** upon completion.
- Snacks and lunch will be provided.
