

Arizona Water Festival 26-27 Survey Class Tally Sheet

Please read the following statements to your students and ask them to respond with a show of hands or using numbers of fingers for each option. For example, say, "All living organisms need water. Show me a 1 for agree, a 2 for disagree, and a 3 for I don't know." Please use this tally sheet to record the total number of students who selected each response option for

each survey statement.

Pre-Festival Survey □

Post-Festival Survey □

Teacher Name	Name of School and Location		Survey Date	Number of students present in class:
Statement	I Agree (Student Count)	I Disagree (Student Count)	I Don't Know (Student Count)	Total Responses
1. All living organisms need water.				
2. You are a part of the Arizona water cycle.				
3. Groundwater is an important source of water we use in Arizona.				
4. Groundwater is not connected to surface water.				
5. Technology makes it easy to waste water.				
6. My choices can help to save and protect water.				
7. The way humans live and interact with water impacts the watershed.				
8. My school is in a watershed.
